- **Operating Systems** : Window,Ubuntu .
- **Areas Of Interest** : Web Devlopement And Programming .
- Acquiring Knowledge in Data Structures ,SQL .
- Communication And Presentation Skills.

## PROJECTS

Done a Project Based On “ Automated Delivery System Using Drone With Enhanced Security

This project presents the development of delivery system. The mini Drone is designed to deliver the parcels and important documents to the receiver. First of all, the Drone is a mini flyer have camera that flies over and capture the scenes. First he Drones are used for surveillance. By this project we use this drones for delivery system. It is designed to deliver the parcel or thing to the correct location of the receiver.

## PERSONAL WORK EXPERIANCE

Using Javascript and css animation by devlope a breathe and relax app.

Simple breathing app can be a powerful stress management tool. Breathe2Relax teaches diaphragmatic breathing techniques to lower your “fight-or-flight” response and calm you down. using javascript and css animation .
